

OSP/SPACE

7 July 1966

D/SP to SIGINT Officer

25X1

Office of the Director of Special Projects DDS&T was located in 5-G-00 area vacated by FMSAC; also located there were PAD, DAD, and OSP Security Staff.

25X1

25X1

By winter 1966 it was anticipated that all OSP would be located in 5-G and 5-F behind barriers.

Some relief was being sought from the rigid restrictions of operating behind the barriers. The numbers of visitors to OSP without passes made it difficult to operate in the SI environment, since OSP did not deal specifically in SI material. It was desired to escort OSP visitors behind the barrier on the 5th floor without prior SPINT Staff coordination and badging.

NRO review(s) completed.
